SPECIALISTS IN ADVANCING EXECUTIVE AND TEAM LEADERSHIP

Financial Analyst Washington D.C.

Our client is seeking a passionate, financial professional to join the financial management team of this \$2.5 billion federal credit union. This organization has an upbeat culture with a supportive board and motivated workforce. True teamwork, with strong growth objective, is evident throughout the credit union, as well as the desire to provide exceptional member service.

As Financial Analyst, you will be an integral part of the financial management team, providing all asset/liability management, investment portfolio analysis and profitability analysis to the Chief Financial Officer. This is the perfect role for someone with strong financial qualifications who is ready to take the next step and build a long-term career within a large, progressive credit union.

Job Description

The Financial Analyst will provide all asset/liability management, investment portfolio analysis and profitability analysis support to the Chief Financial Officer. In addition, the Financial Analyst will perform special projects as directed by the CFO, specifically related to automation of accounting functions and reconciliation problems. He or she will also act as back-up for specific duties to the accounting department and serve as a credit union resource for automation projects dealing with Excel and SQL.

Qualifications

- Bachelor's degree in Finance, Mathematics, Economics, Computer Science or a related field is required.
- A minimum of three years experience within the financial services arena.
- An understanding of the principles of financial theory, corporate finance, financial analysis, macroeconomics, and capital markets, theory and techniques.
- Familiarity with profitability is required; knowledge of interest rate risk management is preferred.
- Must be proficient in the use of MS/Excel for financial reporting and analysis, relational database environments and in design and development of processes and work flows such as MS/Query, MS/Access.
- Excellent written/verbal communication and interpersonal skills; ability to discuss alternative approaches to achieving business objectives.
- Ability to work both independently and in a team environment.
- Strong presentation skills, ability to present proposals in a clear and concise manner.
